Summary

Motivated and fast-growing Software Developer and Project Manager with a strong academic foundation in Information Systems. Experienced in front-end development, Agile methodologies, and real-world project management. Skilled in React, C#, Firebase, and Node.js — with a proven ability to lead teams, manage deadlines, and deliver impactful software solutions. A problem-solver and collaborative leader passionate about building technology that makes a difference. Currently expanding my skills through certifications in AWS, UX Design, and CompTIA.

Experience

Software Development & Project Manager Intern

Forge Academy Labs • Randburg

12/2024 - Present

- Promoted to **Project Manager Intern** in second month to lead multiple high-impact IT projects.
- Managed end-to-end project lifecycles: planning, scheduling, and delivering tech solutions on time.
- Tracked risks, optimized resources, and aligned stakeholders using Agile practices and MS Teams.
- Designed and developed front-end interfaces using **React JS**, **Tailwind CSS**, and **Firebase**.
- Facilitated daily stand-ups and retrospectives, encouraging continuous improvement and innovation.

Intern (Finance/Admin)

Tundra Tax & Accounting • Johannesburg

06/2022 - 07/2022

- Streamlined administrative tasks, improving document flow and client communications.
- Supported tax management and bookkeeping processes with accurate data entry and filing.
- Gained exposure to financial systems and client-facing operations in a fast-paced environment.

Key Projects

Pack It Buddy – Final Year Capstone

Full Stack Developer | UJ | Jan 2024 – Oct 2024

- Collaborated with a 6-person dev team to build a logistics platform using **React JS**, **Node JS**, **Firebase**, and **Tailwind CSS**.
- Led frontend development and contributed to DevOps deployment with 99% uptime.
- Applied Agile sprints, delivered features like quote forms and driver-client matching.
- **Awarded 2nd place** in UJ's Applied Information Systems Competition for innovation and impact.

[Nthabi's Portfolio Website](#)

Front-End Developer | Dec 2023 – Present

- Developed and deployed a fully responsive developer portfolio using **React JS** and **Tailwind CSS**.
- Showcased projects, skills, and achievements in a modern, user-focused design.
- Hosted on **Netlify** with a focus on UX, accessibility, and performance.

Skills

ReactJS, Tailwind CSS, SQL, JavaScript, Firebase, React Native, Figma, Trello, Agile/Scrum, REST APIs

Education

BCom Information System

University of Johannesburg • Johannesburg
